

VISUAL ARTS

K/1 GRADE ACTIVITIES

Introduction: While most of us are home we may feel disconnected from our friends and community. Many people find taking a walk is a good way to be outside and connect with nature. Some communities are placing things in their windows to provide hope, inspiration and cheer to people walking by. With this lesson you will create a heart, filled with designs using lines, textures, and colors to inspire people in your community.

Materials : Something to draw with: a pencil or pen

Optional: ruler, crayons, markers colored pencils, scissors

VOCAB REVIEW

Line: The path of a point moving.

Shape: The outline of an area.

Texture: The way something feels when you touch it.

STEP 1:

Using the provided heart, make a design by drawing lines in different directions across the heart. You can use a ruler, or other material for a straight edge, if you have one.

TIPS FOR DESIGNS

- Use different types of lines to create unique patterns, there are some ideas on the last page for you to try. Scratch paper is a great place to practice.
- Try filling some sections of your heart with texture. To create a texture rubbing, look around for textured surfaces, like a wood floor, bumpy wall, even the outside of a cantaloupe. Simply place your paper over a textured surface, hold it still, and rub with the side of a pencil or crayon. To learn more watch Mr. Chavez's video on texture at www.youtube.com/c/SeattlePublicSchoolsTV

STEP 2:

Fill each shape! Try drawing different line designs in each section, or if you have markers, crayons or colored pencils, fill in each section with a different color. Remember you also can use texture rubbings! Walk around your home and see what textures you can find.

"You can't use up creativity. The more you use, the more you have."

STEP 3:

When you are done filling in your heart you can, display it in your window, put it on a door or give it to someone who has been taking care of you while you're at home.
