

# Boredom Busters Vol. 3

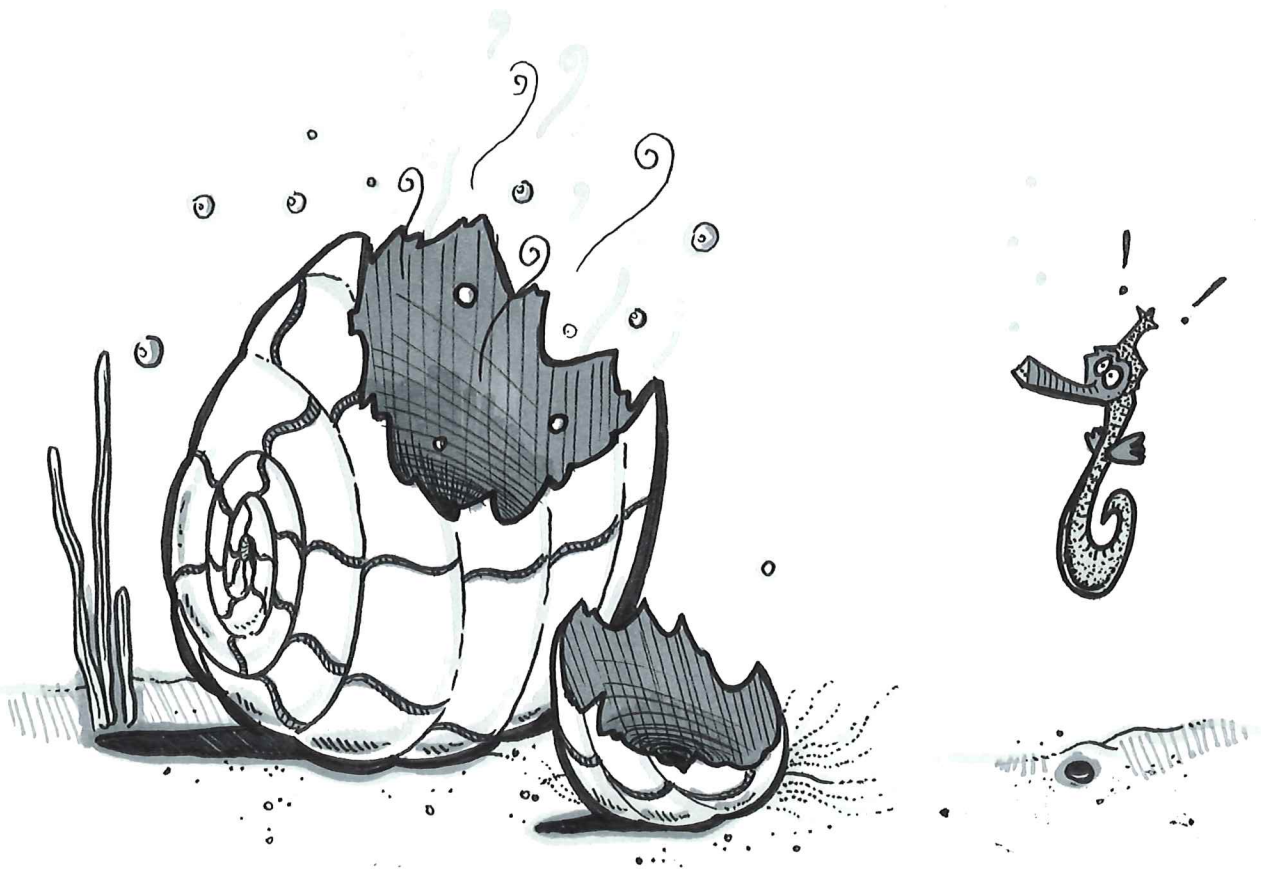

NO ARTIFICIAL AWESOME

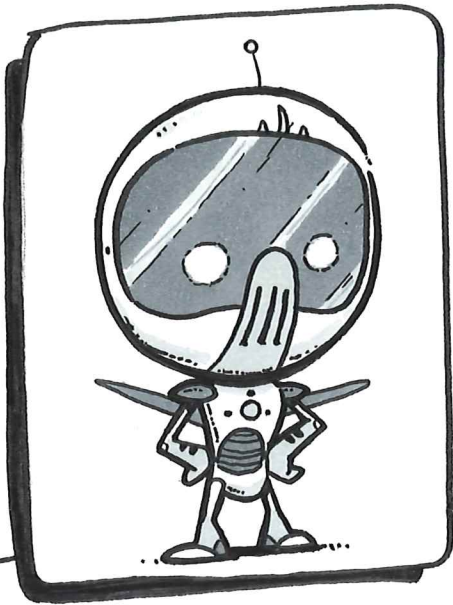

# HATCHED. ♪♪

What sea creature just emerged from this strange egg?

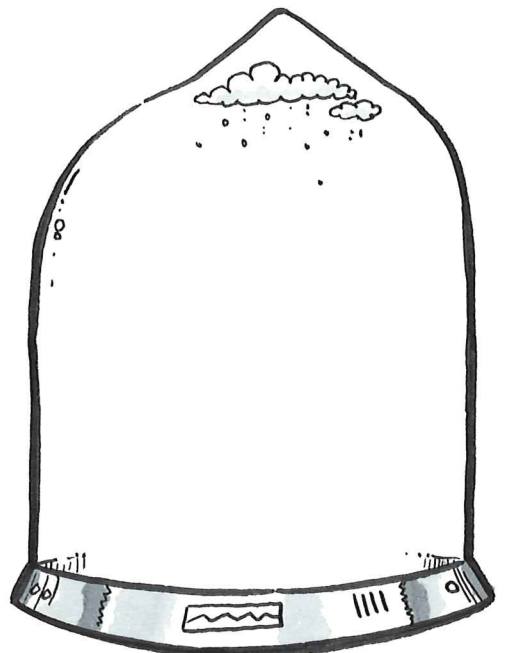

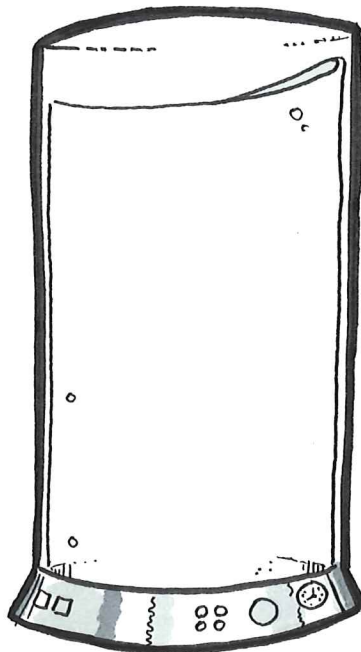

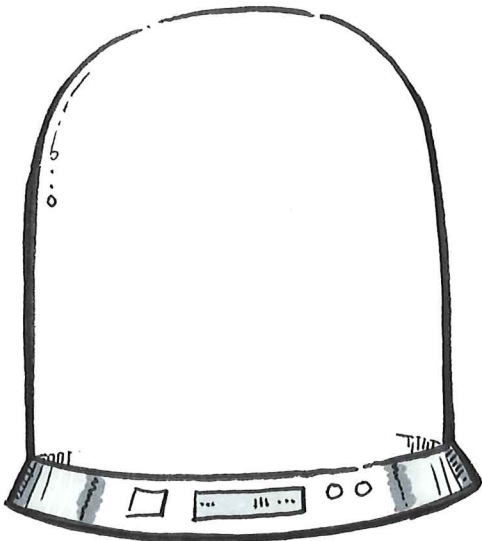

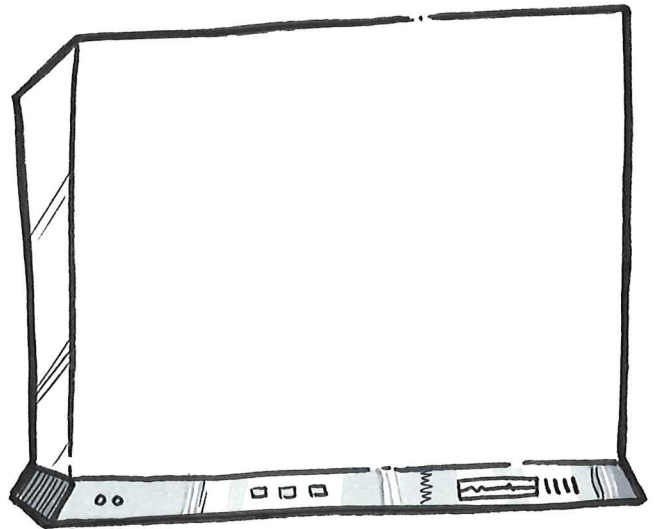

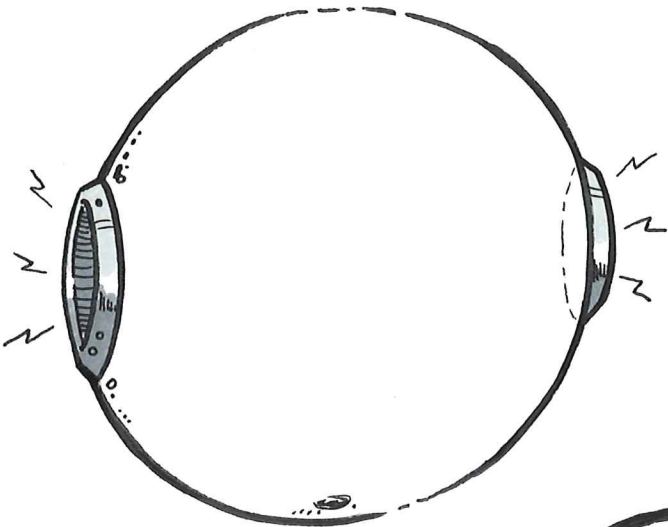

# SPACE CHASE

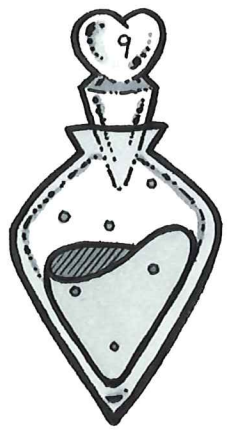

This is Kid Bot. He has traveled the galaxy saving endangered alien species. Today all 5 of them escaped! Please help Kid Bot collect them safely. Draw 5 unique alien creatures, one in each unit.

# Potion Maker

Design 8 unique and special magic potions! Each bottle is influenced by the potion's properties.

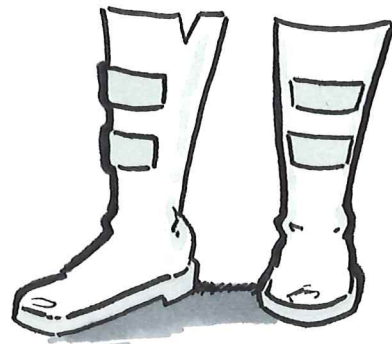

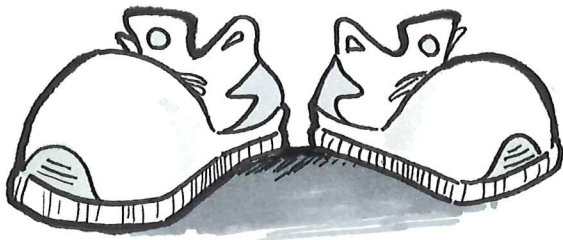

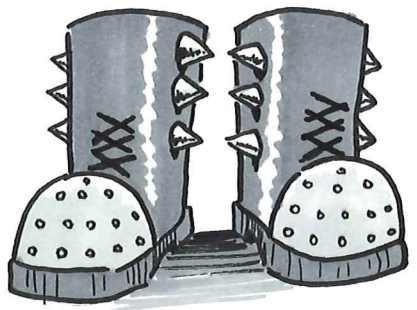

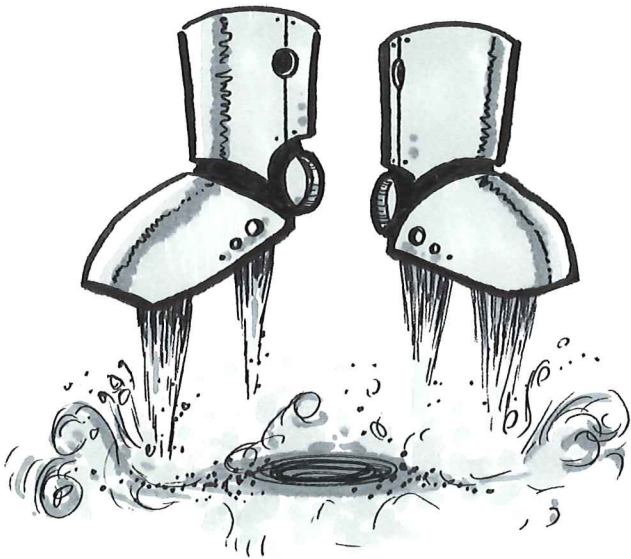

Love Potion #9

# BIG SHOES TO FILL

On the next 2 pages you'll find 4 pairs of shoes. You decide what sort of characters would wear each pair. Draw the characters wearing the shoes and add color!

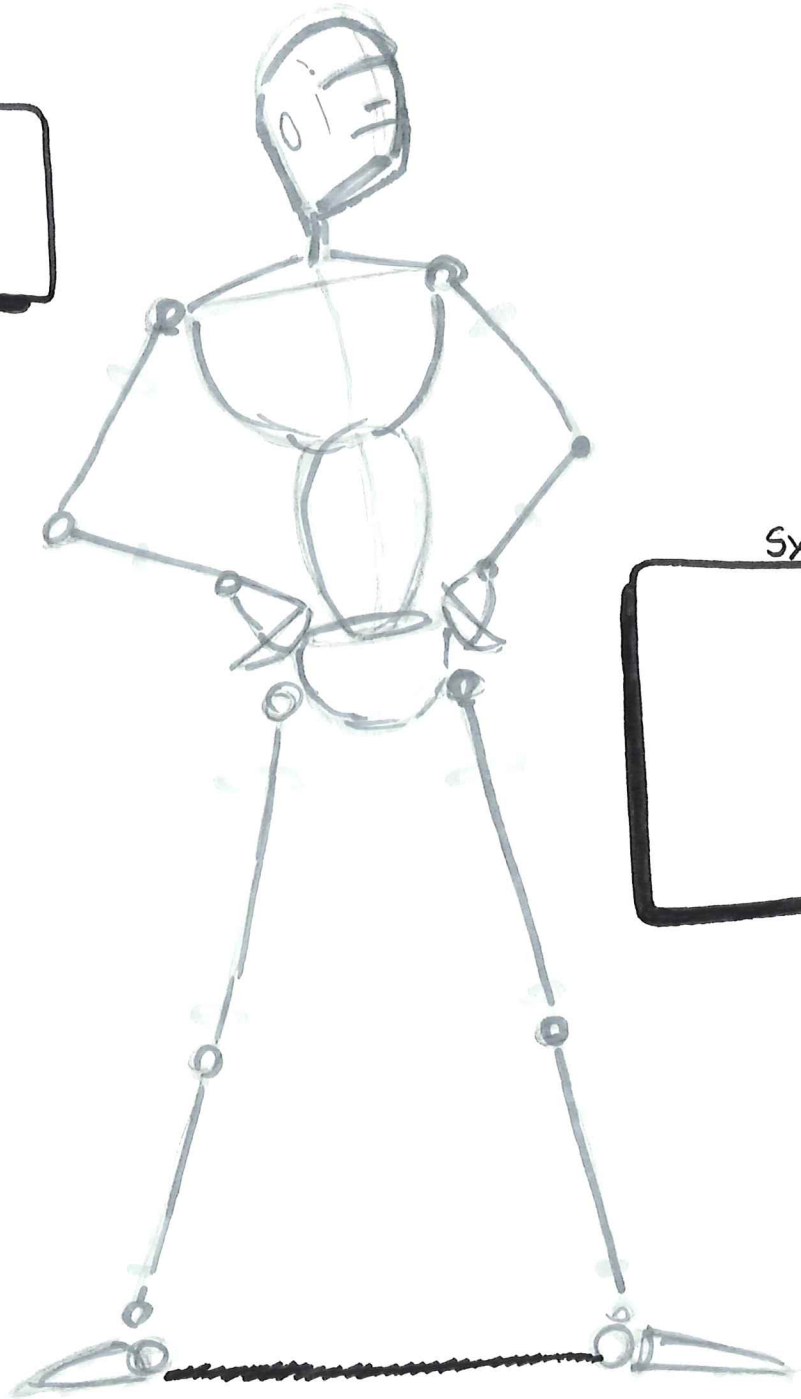

# SUPER

Superheroes do exist! They may not be able to fix or bend steel but they are all around us. They are the people that wake up every day thinking about how to make this world a better place. Use the armature below to design a superhero based on an extraordinary person you look up to. Draw right over the top of the wire figure to help with

Name:  
Alias:

Abilities:  
  
Weaknesses:

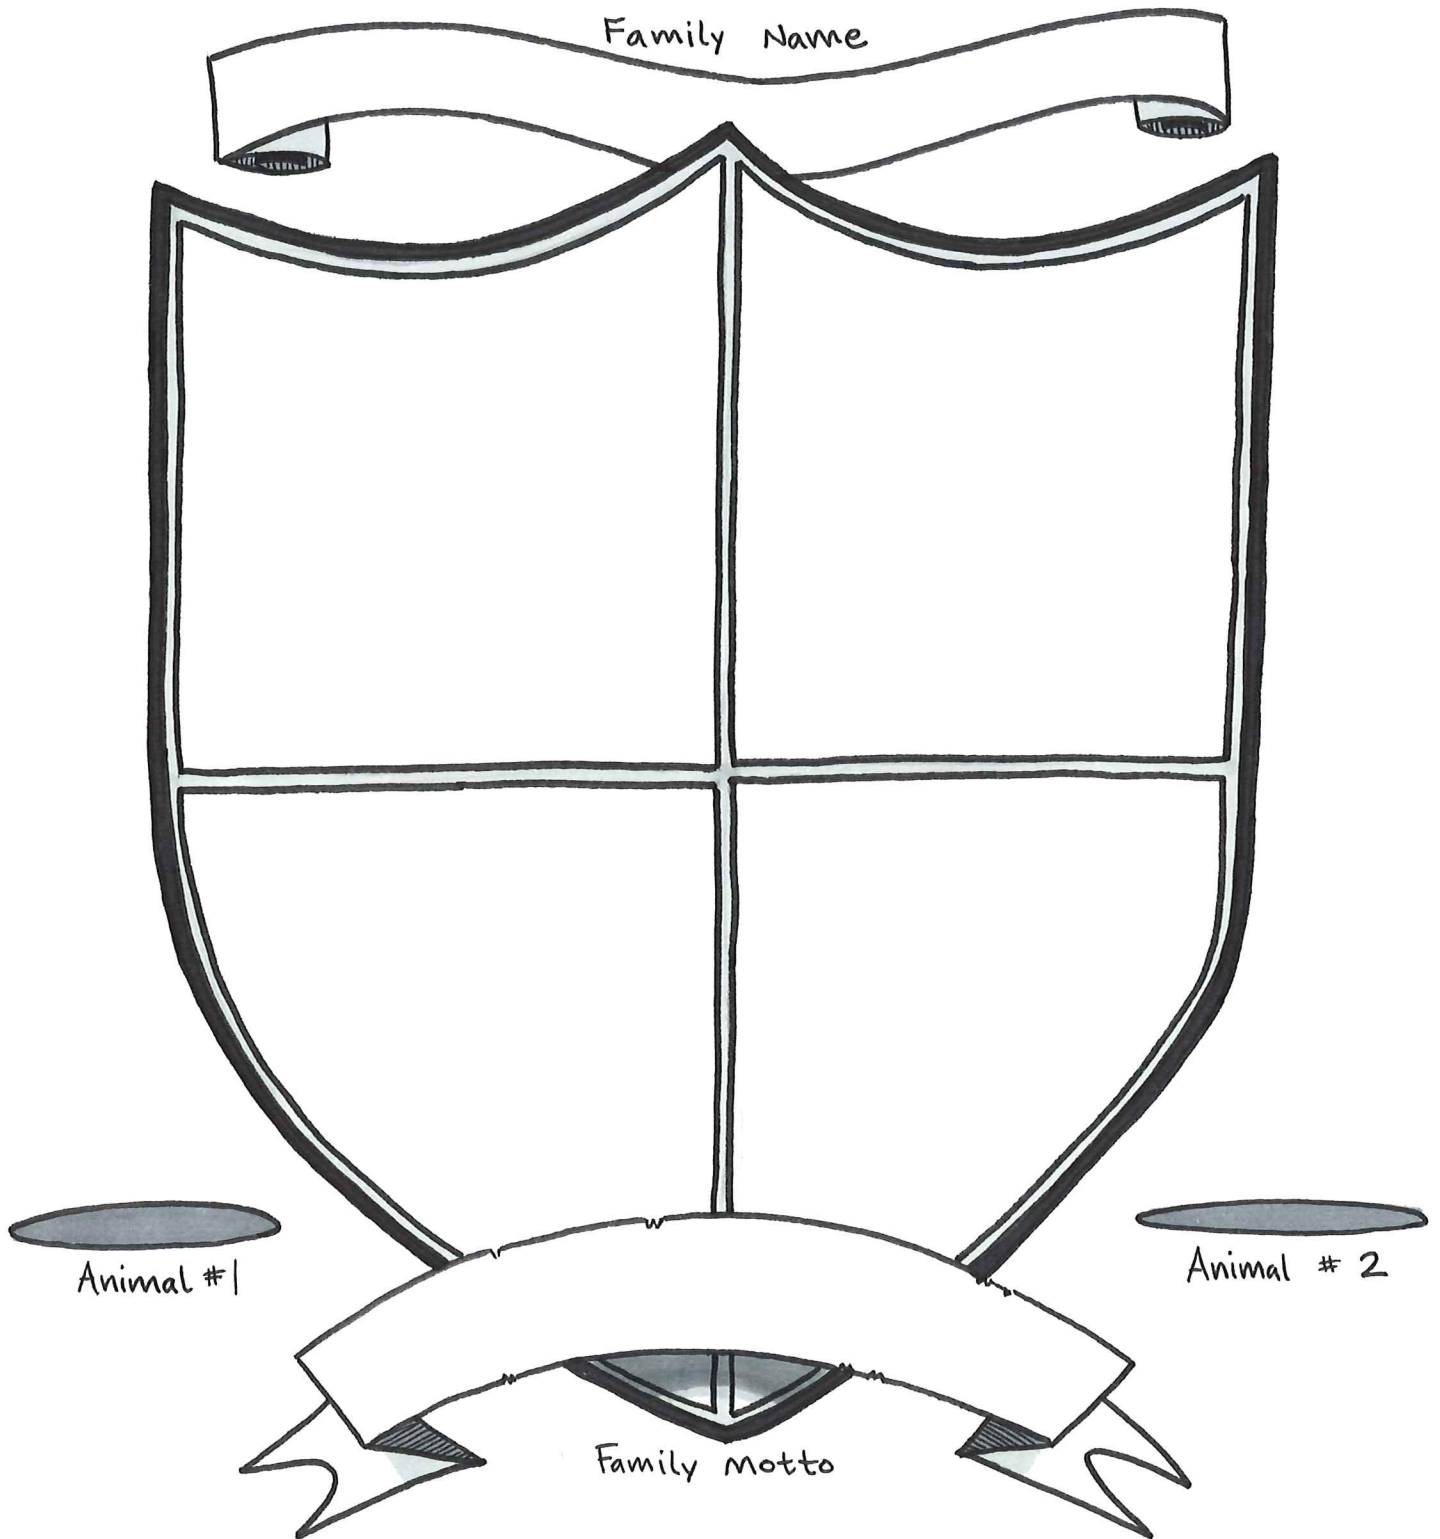

Symbol:

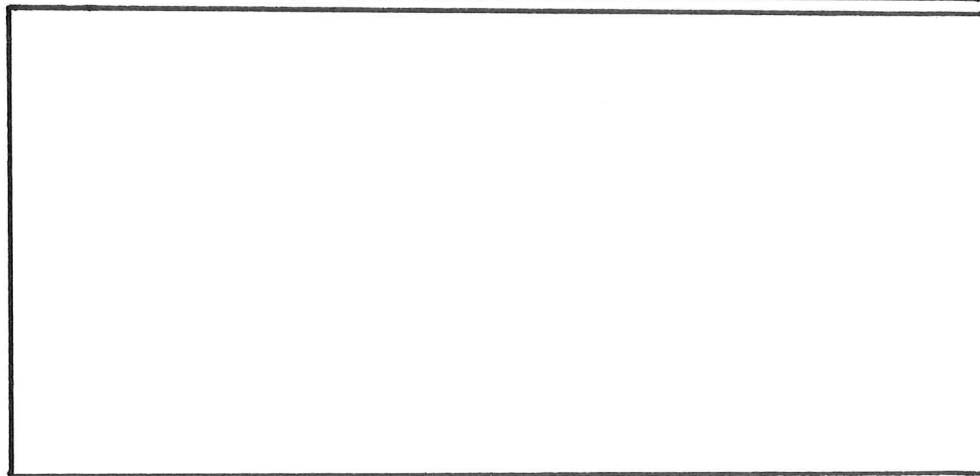

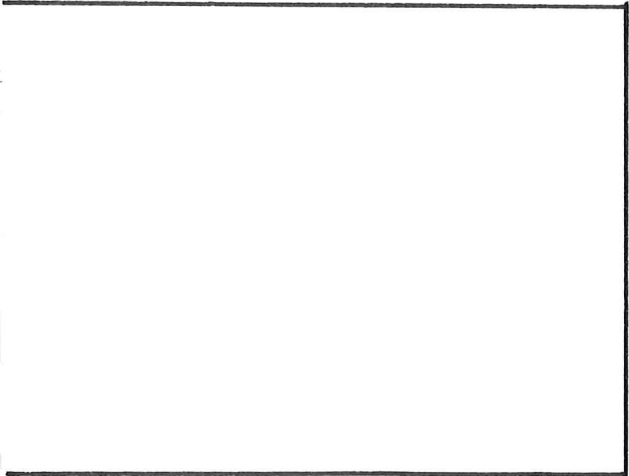

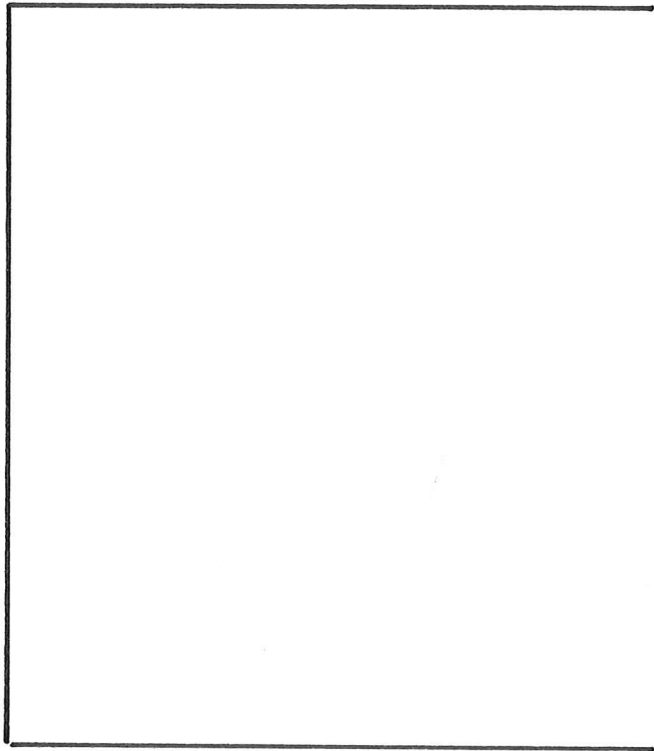

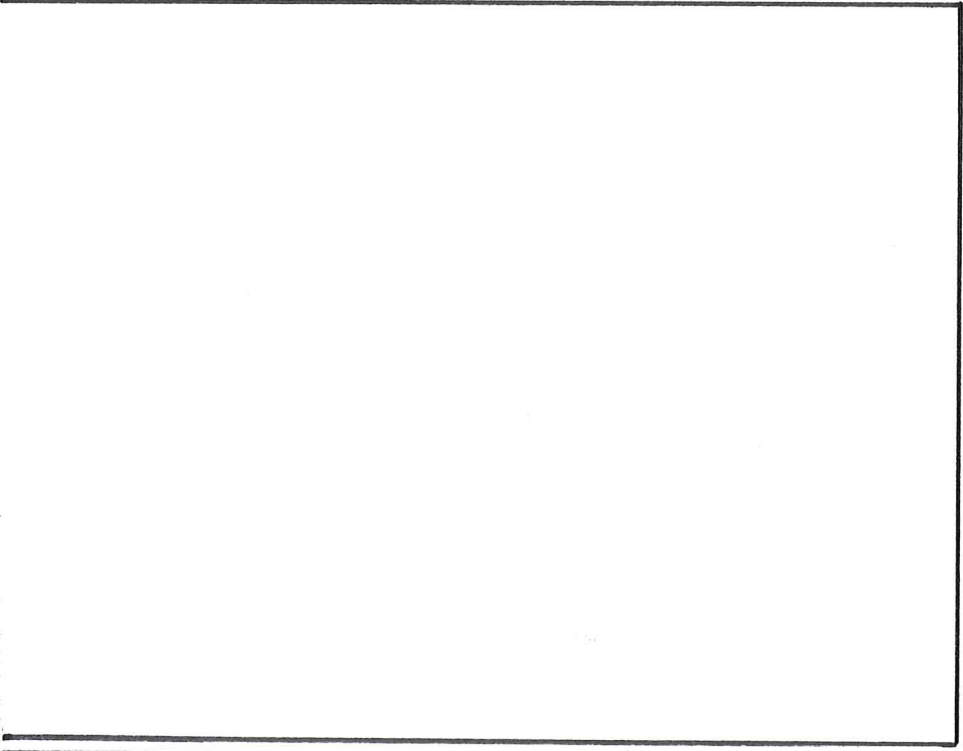

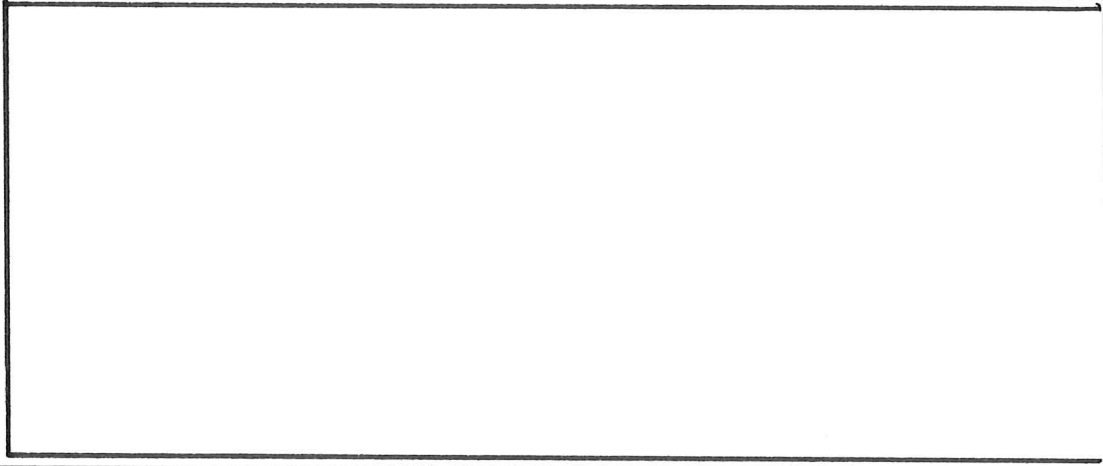

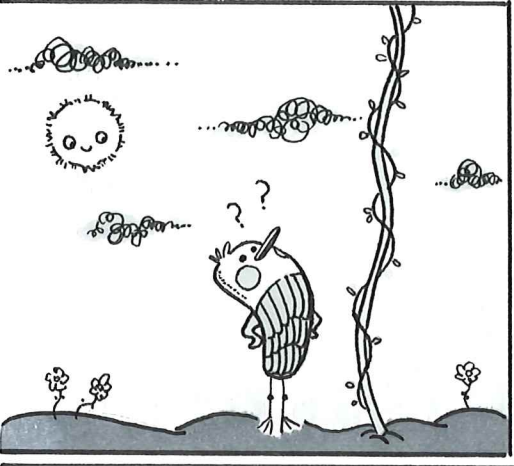

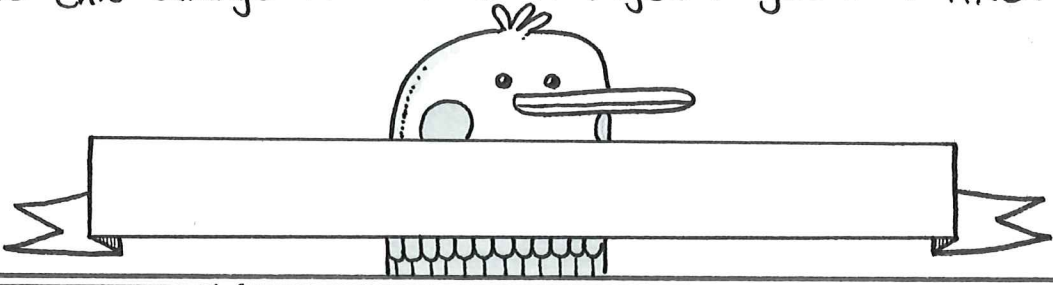

# CREST

A Crest is a symbol that represents your family and your lineage. Discuss with a family member about what's unique and important to your family and create your own family crest. In the top banner write your family name. on each side draw pets or favorite animals. on the bottom banner write a family motto or saying. Inside the shield draw four things that represent your family.

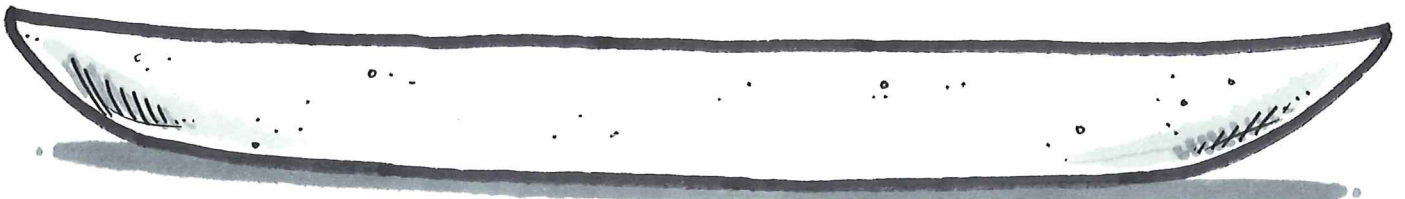

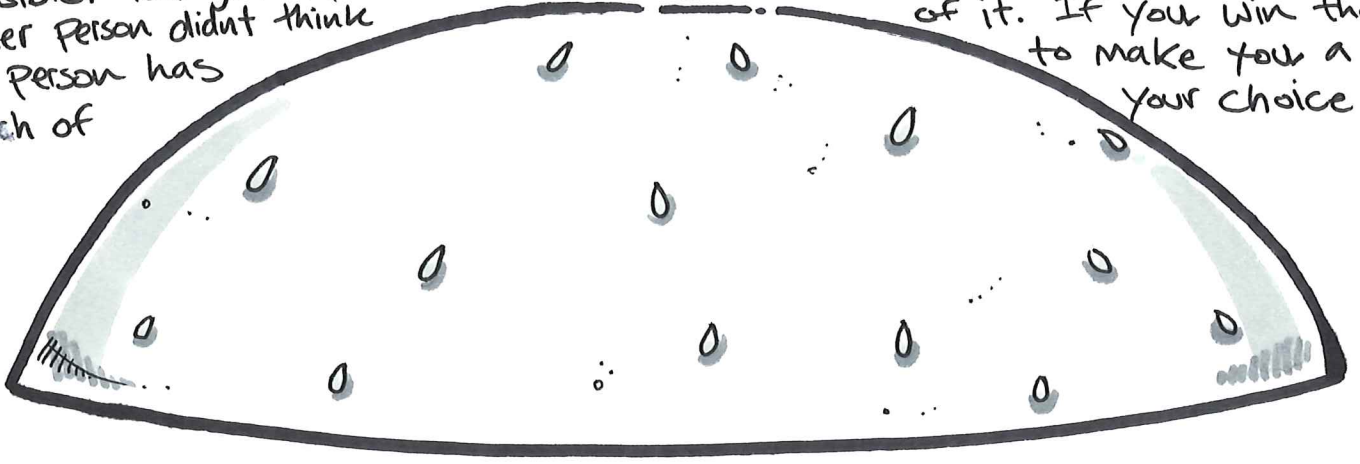

Complete this strange tale and don't forget to give it a title!

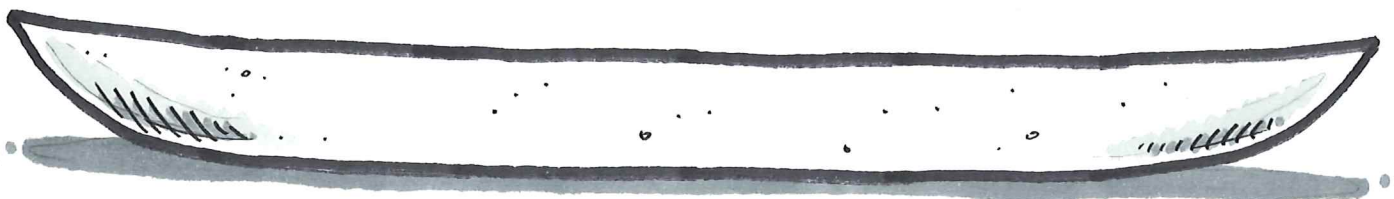

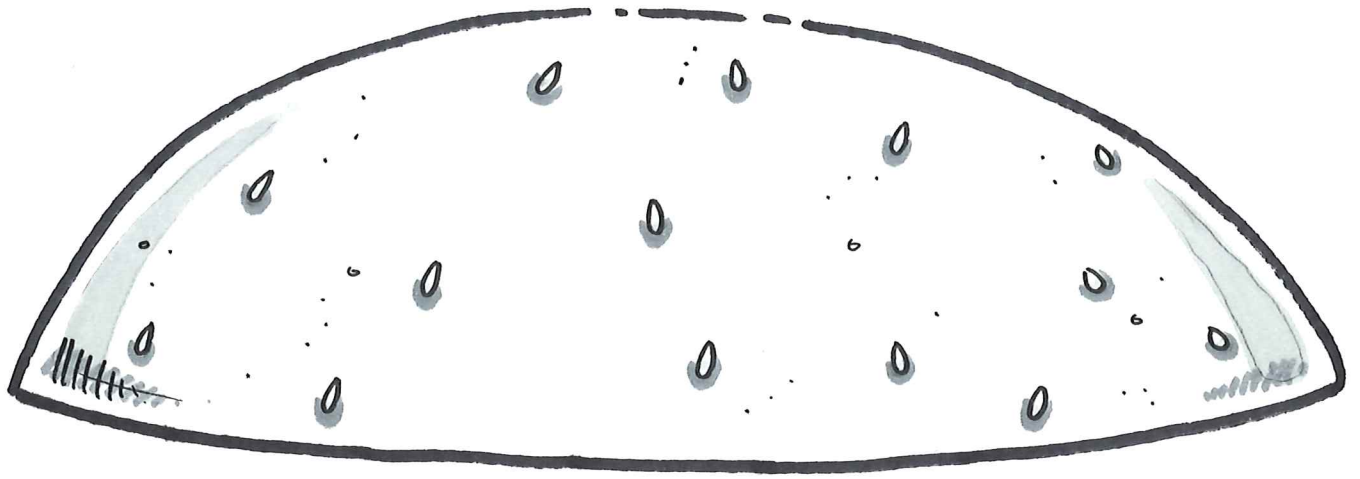

# ~ Silly Sandwich ~

This is a pretty wacky one so be ready! This is also a competition, so find someone in your household to play along. Each person gets one empty sandwich and your job is to fill it with as many strange and wacky things as possible! You get 1 point for each thing you think of, and an extra point if the other person didn't think of it. If you win the sandwich to make you a your choice!

This is the other player's Silly Sandwich, so don't even think about eating it!

# ♥ A HEART SHAPED VORTEX ♥

**Goal:** Complete an optical illusion project using Lines and Color. The project is started for you on the next page, below are the directions.

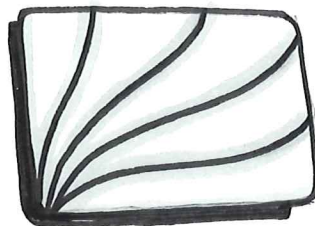

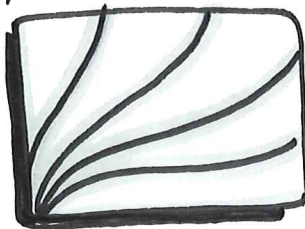

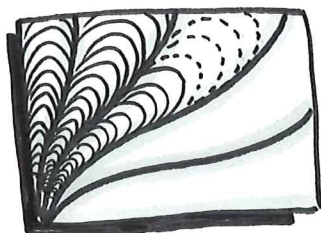

On the next page you will see a heart shaped vortex! The heart shape is in the center of the page. Notice how the vertical lines inside the heart make it appear as though there is a heart shaped hole in your page! Don't adjust your eyes, this is an optical illusion. Lines are powerful things, they can be very suggestive of form, depth, and space! Next, notice around the heart there are 12 curved sections. Two of these curved sections are filled in with grey lines. These grey lines are also curved, notice how that makes these two sections look rounded in appearance and form. Okay, let's get to the fun part, here is what you're going to do!

## Step One

Trace over the curved grey lines in the two filled sections with a dark utensil (marker, pen, colored pencil, or sharpie).

## Step Two

Fill in the remaining 10 sections with more curved lines, just like in the last two sections you completed. Below are some sections you can practice on if you'd like.

## Step Three

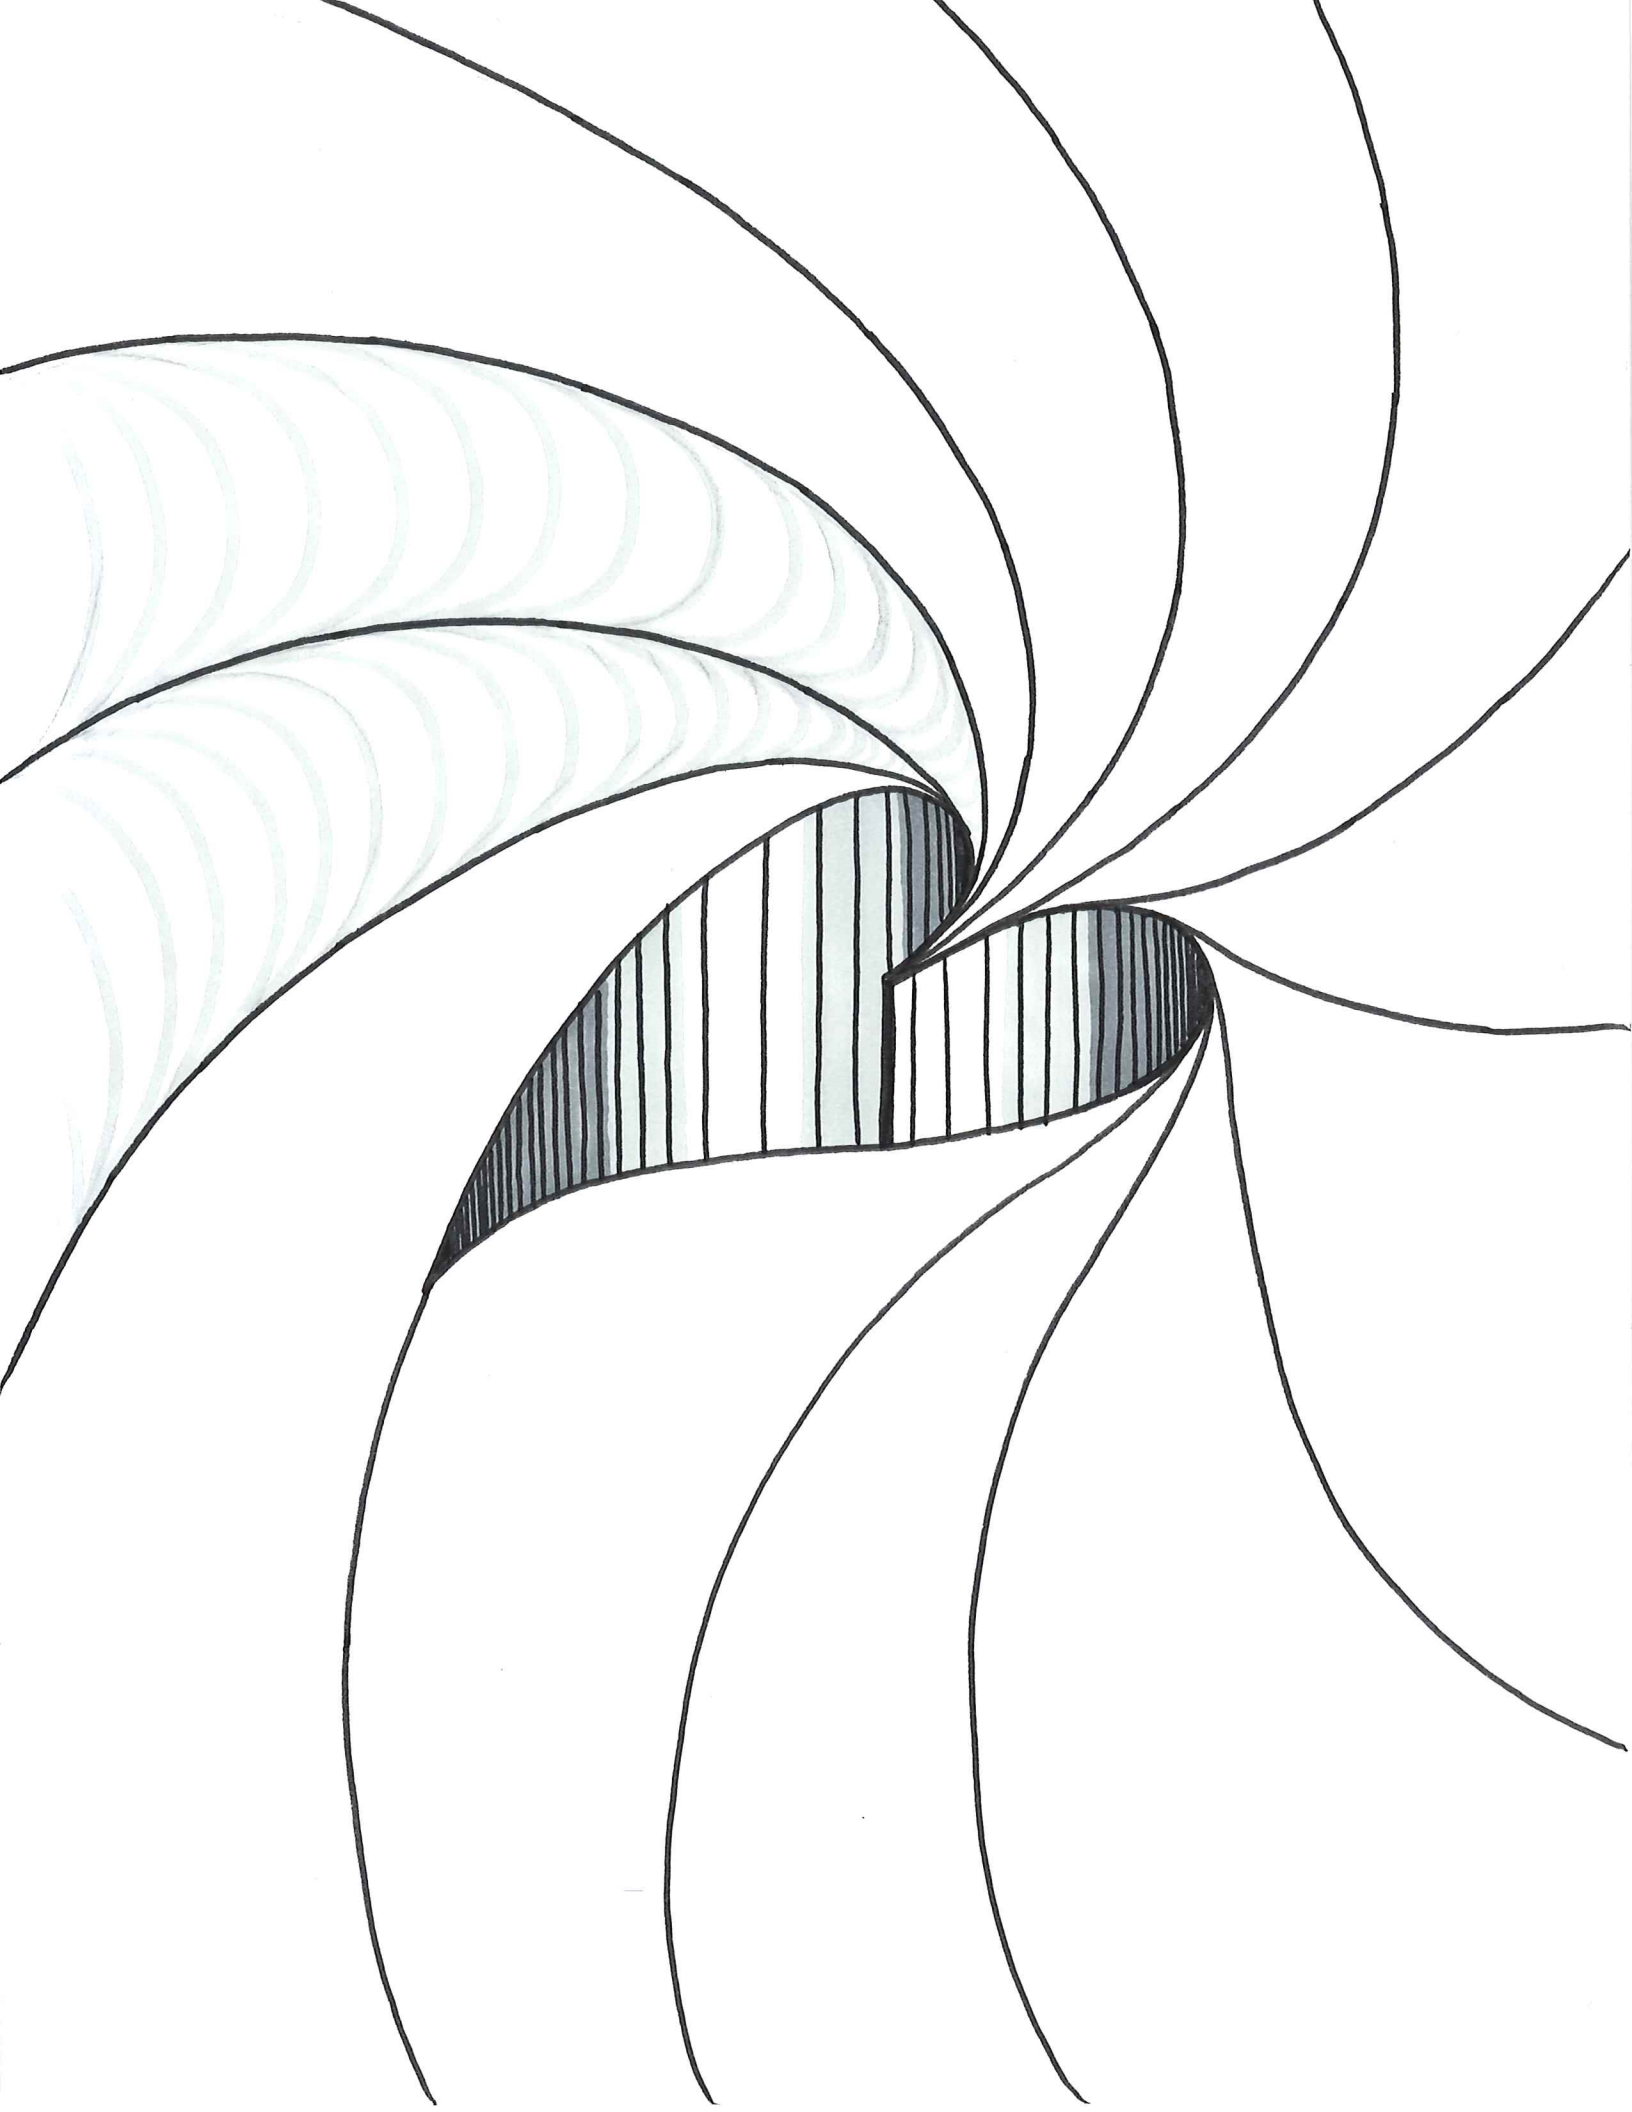

Pick 2 or more colors and fill in each section by alternating the colors you've selected. This will create a pattern of color in each of the curved sections. Below is an example.

Pattern: Black, grey, white

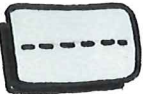

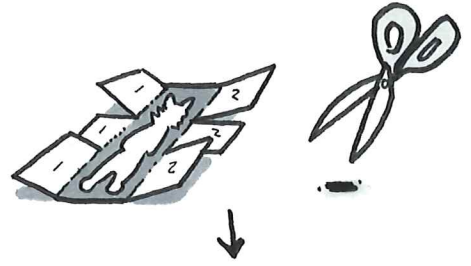

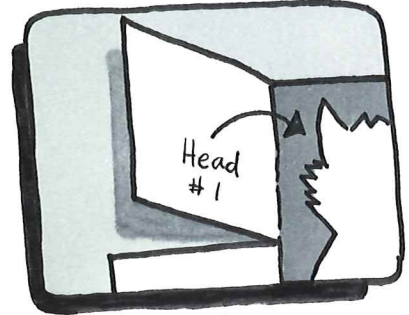

# CREATURE CREATOR FLIP BOOK

**Goal:** You will design 3 different creatures on one piece of paper. The body parts will be interchangeable. Directions are below, assignment on next page!

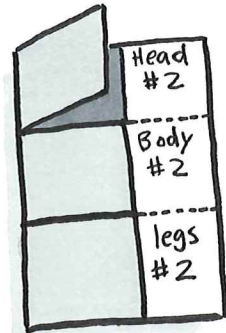

- ① Cut all the dotted lines .  
Tip: Make sure not to cut through or on any solid lines.

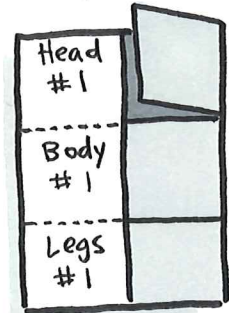

- ② Fold all the solid lines .  
Tip: There are 6 flaps that you will fold over the creature. These flaps are labeled with a body part and a number.

- ③ Decorate and color the blank creature with the gray background.  
Tip: Add some fun features to this creature like stripes, polka-dots, or other patterns.

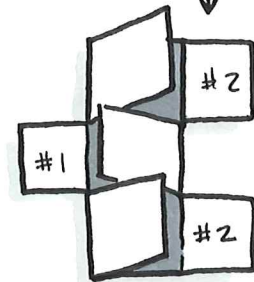

- ④ Fold all the flaps labeled with a "#1" over the decorated creature. Now you can create your own creature, but make sure the head is the top flap, body is the middle, and legs are the bottom. Unfold these flaps when you finish this creature #1.

- ⑤ Fold all the flaps labeled with a "#2" and repeat step 4, but this time make a brand new creature!

- ⑥ You now have 3 creatures and you can mix and match their body parts!
